### Item Title:

Identify Funding for New Modular Classroom at the Fire Training Center

### **Specific Action Requested:**

Fire Commission supports and grants latitude for the Fire Service Director to use identified savings and Fund Balance for an expenditure of no more than \$400,000 to purchase a new mobile classroom trailer for use at the Fire Training Center.

### Item Summary:

The Fire Training Center classroom space is limited based on an annual ongoing Academy. For approximately 38 weeks during the year, the Fire Academy uses the classroom leaving no other class instructional options on site. The older "Brown Trailer" was identified as unsafe last year and was removed from the property. With assistance from Wake GSA for site work, and \$150,000 in funds from Town of Cary, we request an opportunity to provide secondary space on site by way of a new modular classroom. Wake Fire Services will work with GSA and Finance to bid and procure this unit.

# Wake County Fire Compensation Guidelines Addendum 1

# **Salary & Compensation Guide for New Hires**

**Purpose:** This addendum was developed to provide guidance and boundaries in regard to compensation for new hires within the Wake County Fire Tax District not for profit departments.

**Salary Administration:** Department Board of Directors and Fire Chiefs are accountable for making, justifying and documenting fair, consistent, non-discriminatory, and fiscally responsible salary recommendations for new hires. The Department Board of Directors and Fire Chiefs are also ultimately accountable for making compensation decisions for new hires that can be accommodated within the department's salary & benefit portion of their current budget.

When recommending a new hire salary, the following pay factors should be considered.

- Internal Equity The consistent placement of salaries among employees in positions of the same job title with similar education, years of experience, complexity of role and required competencies
- Funding Availability The amount of funding (budget in salary & benefits) that a department has available when making salary offer decisions.
- Job Requirements/Experience/Education The posted job requirements and additional years of education/experience the candidate has provided in relation to the provided guidance in this document.
- Market Range Any proposed salary above mid-point based on all guidance will require pre-approvals by Wake County Fire Services and the Budget Committee.

#### Item Title:

The Fire Commission recommends supporting the changes to the Morrisville Rural and Hipex fire insurance districts.

#### **Specific Action Requested:**

Fire Commission recommends change to the Morrisville Rural and Hipex fire insurance districts as reflected on the attached map.

#### Item Summary:

Based on Morrisville Station 3 relocating to 1021 Haris Mill Rd (effective 9/1/23) and Apex Station 6 opening at 1201 Wimberly Rd (expected early November), a response analysis was conducted. Based on that analysis, it was determined that 191 parcels should be reassigned from the Morrisville Rural district to the Hipex district to minimize response times.

The affected parcels will go from ISO 1 to ISO 2 which will have a minimal, if any, impact on insurance premiums. All parcels remain within five miles of the nearest fire station. Due to the closest unit response policy/practice of the Cary-Apex-Morrisville (CAM) alliance, the area will continue to be served by the closest available units of all three agencies.

#### Attachments:

Updated ISO map for the affected parcels showing:

- Hipex (Apex Rural) parcels in red
